

GPST Threaded Emitters

FEATURES

- Stamped Flow and Color Coded for Easy Identification.
- Pressure Compensated Design delivers uniform flow throughout a wide pressure range (5-45 psi; 0.33-3 bars), regardless of pressure inconsistencies (from elevation changes, etc..)
- UV Resistance provides protection from harshest environments.
- 1/2" FIPT emitters are compatible with all standard 1/2" MIPT fittings.
- 1/2" FIPT Inlet x Diffuser Cap Outlet.
- Self sealing screen eliminates need for Teflon tape.

SPECS

- P.C. Fixed Flow: 0.5, 1, 2, 4, 6 & 8 GPH
- Operating pressure: 10–50 psi
- Filtration: 80 Mesh
