IWC - Irrigation Wire Clip

Applications:

GPH's Irrigation Wire Clip Our new IWC's, Irrigation Wire Clips, help keep the most fragile part of your system, **the wires**, exactly where you want them. It does not take much for a 2-wire system to be rendered completely useless when any sort of damage to the wire occurs, check your controller warranty for reference.

The IWC's are a simple and effective way to ensure success and avoid costly damage.

Features:

- Reliable Performance** - eliminates damage to wires by holding securely to pipe
- Variety** - Clips offered in 1/2" IPS to 3" IPS.
- Ease of Installation** - simply run the wire near the pipe and clip to hold that position

Models:

IWC-05 - 1/2" IPS Irrigation Wire Clip

IWC-075 - 3/4" IPS Irrigation Wire Clip

IWC-100 - 1" IPS Irrigation Wire Clip

IWC-125 - 1 1/4" IPS Irrigation Wire Clip
